

The Global Greenhouse Gas Budget to Limit Global Warming to 2°C

By Gunnar Boye Olesen, INFORSE-Europe

INFORSE-Europe European Sustainable Energy NGO Seminar
Artefact, Germany, November 10-14, 2009

http://www.inforse.org/europe/seminar09_Artefact.htm

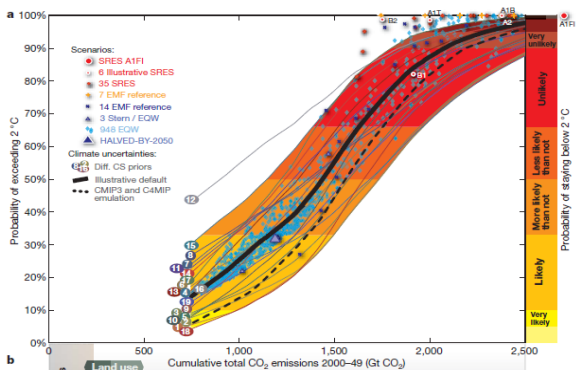

Climate Sensitivity, Probability of increase from doubling greenhouse gases

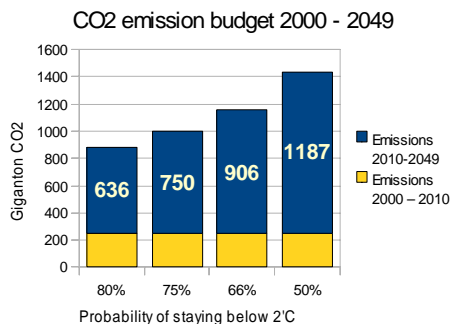

According to Meinshausen, Hare a.o. PIK, Nature, April 2009
1: IPCC 4, 2007
4: World Energy Council 2007
16: Meinshausen et.al. 2008

Literature studies
This study's illustrative default

The climate budget

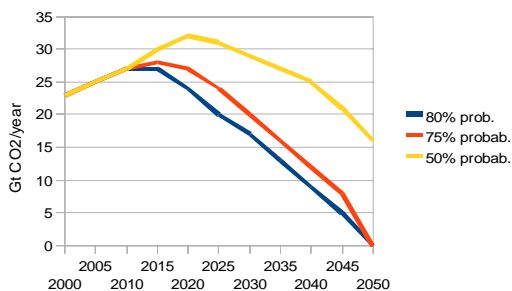

Climate budget

Pathway

Global CO2 emissions to keep below 2°C
