

Sustainable Energy - Zero Carbon by 2030-2040

02 December 2010

11.00 - 13.00

Room ASP 8F 388
European Parliament

**We can phase out fossil fuels in the EU countries in 20-30 years!
We can reduce CO2 emissions from energy to almost zero! and
We can improve our life at the same time!**

Event hosted by Jill Evans MEP, Wales, UK (Greens/EFA)

- **INFORSE-Europe** will launch its new sustainable energy strategy with scenarios for phase-out of fossil fuels until 2040 for the entire EU.
- **Centre for Alternative Technology in Wales** will present its ground-breaking ZeroCarbonBritain study, showing how to phase out fossil fuels for the UK until 2030.

The event will also include presentations of other sustainable energy scenarios and possibilities to discuss the work with two of the authors.

Presentations by:

- Paul Allen, External Relations Director, Centre for Alternative Technology, Wales, UK
- Gunnar Boye Olesen, Coordinator, INFORSE-Europe, Denmark

Participation is free. (coffee and tea included)

Registration is mandatory. Participation is limited to 30 people. Please register to jill.evans-office@europarl.europa.eu with full name, birthday, passport number, organisation, and country by Monday 29 November.
